The Commercial Life

Assurance Co. of Canada

Head Office - Edmonton

**Incorporated by Special Act of the Parliament
of the Dominion of Canada**

**Licensed by the Dominion Insurance
Department**

The solvency of a company licensed by the Dominion Insurance Department is thoroughly investigated each year by trained auditors from the department. No policyholder of a Dominion chartered company has ever found his policy insecure.

One of the many stringent conditions required of companies with a Dominion license is a deposit of \$50,000. The deposit of the Commercial Life is in excess of that required by the Act.

Over and above this deposit, each Dominion chartered company is compelled to maintain reserves considered adequate to guarantee its ability to meet its obligations. These reserves increase with every dollar's worth of insurance written.

Life Men needing the impetus and enthusiasm of a new organization, with the prospect of highly remunerative positions of responsibility, are invited to correspond.

The Objects of the Association

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory Business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing collecting or canvassing for any fraudulent or "fake" Directory.

*Would you say:
"Give me a pair of glasses?"*

—then why ask merely for a quart of "oil"? Every style of motor requires a particular type of oil just as every pair of eyes requires a particular kind of lenses.

That's why we handle SUNOCO Motor Oil. It is made in six distinct types to give accurate and efficient lubrication for any type of motor.

Tell us the car and we will tell you the type of SUNOCO, the all-distilled oil. Use SUNOCO regularly for a sweeter-running, longer-lasting, more powerful motor. Drive around and let us show you.

Introductory

THIS Eighteenth issue of the Greater Edmonton Directory, comprising the City proper and all suburbs, is presented to the public with the belief that it will meet the demands of the most exacting and will fulfill the requirements of all its users.

The information in this book is gathered as far as possible by actual canvass, and is compiled in a way to ensure maximum accuracy. While the publishers will in no way be held responsible for any errors that may occur, they will be glad to have any inaccuracies brought to their attention, so that they may be corrected in succeeding editions.

The canvass for the present book was made under favorable conditions, with a crew of efficient canvassers, under the immediate supervision of carefully trained examiners.

The results of the canvass were most satisfactory and the manner in which the information checked in, proved the thoroughness of the work.

Upon examination and use as a work of reference, the directory will be found to contain a thorough and complete store of information regarding all the interests of the city. It is devoted to the advancement of all the city's vital interests and has in each issue kept pace with its progress.

The library of city directories which is maintained by the publishers at The Board of Trade offices, for the use of its patrons, has proven a most valuable asset to the City of Edmonton.

Through the exchange of directories with the various directory libraries throughout the United States and Canada and the sale of the Edmonton Directory to many institutions, hotels and stores in large cities, the directory is circulated throughout the country and serves as a lasting advertisement for our city.

The canvass for the Edmonton Directory includes the entire city, so that the name of each person employed should be taken twice; once at the dwelling and again at the place of business. After the canvass has been completed, this information is compiled and it is necessary that there be two slips for each person employed. The information taken at the residence and place of business is compared before the duplicate is laid aside. When a discrepancy is found, a special messenger is dispatched to correct the conflicting information, or if the name has not been taken at both places, to retake it at the home or business place.

The new information is checked with the previous directory and each name in the old directory is accounted for.

It is this careful superintendence and revision which makes the directory estimate of population higher than the census figures.

The directory estimate of population is based on the actual number of names contained in the book, which is multiplied by a common multiple to allow for the married women and small children whose names do not appear.

Based upon the names contained in the pages of this book, it is estimated that the population of Greater Edmonton is 74,690. This includes considerable territory beyond the city limits, which is canvassed in order that the names of all people doing business in Edmonton may be obtained for the directory.

The publishers desire to thank their patrons and the general public for the courtesy extended at all times to their representatives, and to express their appreciation for the confidence which the business and professional men of Edmonton have always shown in their publications.

Respectfully, The Publishers,

HENDERSON DIRECTORIES, ALBERTA, LIMITED

October, 1923.

Edmonton

Edmonton was founded about 1807 on the site of the present city. Two posts were established by the Northwest Company and the Hudson's Bay. The Hudson's Bay post was known as Fort Edmonton and the Northwest post as Fort Augustus. These names had been in use since 1794, being applied to two posts built twenty miles further down the river near where the Sturgeon River flows into the North Saskatchewan. Fort Edmonton and new Fort Augustus were abandoned for a post about 120 miles down the river at Whiteearth House.

From this date on until 1819 or 1820 there was no trade on the upper Saskatchewan, and consequently we read of very little growth of the two posts at this point. This was the period of the bitter struggle between the two fur companies, which did not cease until the amalgamation in 1821.

Edmonton was rebuilt in 1820 under the direction of Chief Factor Sutherland. He was succeeded three or four years later by Chief Factor John Rowand, who remained in this position until about 1854 or 1855. The new post was elaborately built by Chief Factor Rowand on the bank immediately below the present Parliament Buildings. A stockade 18 feet high, made of split logs, was built around the fort. The stockade was 310 feet long and 210 feet wide. This fort was the most elaborate and strongly built of all the forts west of York Factory. It stood at the head of navigation of the Upper Saskatchewan, and was the most important transportation point within the Prairies on the overland route from the Atlantic to the Pacific. Goods were brought from York Factory and Fort Garry by York boat, where they were repacked and sent back by pack horses overland to Fort Assiniboine on the Athabasca, the Hudson's Bay keeping as many as eight hundred horses around Fort Edmonton for this business. The population of the post for fifty years, 1820 to 1870, remained about the same, namely 130 to 200, according to the season of the year, the number of visitors and free-traders that came to the post from time to time.

After the transfer of the Hudson's Bay territory to the Canadian Government, settlers began to take up land in the vicinity of the post; some of these were retired Hudson's Bay factors; others were miners who came in from the Cariboo and the Peace River. The first building outside of the Hudson's Bay establishment was erected by Rev. George McDougall in 1871, on the site of the present McDougall Church. This missionary may be said to be the founder of modern Edmonton. The Mounted Police came in 1874 and wintered in the Fort. In the following spring they moved down the river and built Fort Saskatchewan. Donald Ross built the first hotel west of Winnipeg on the site of the present Edmonton Hotel at the foot of 101st Street. Frank Oliver established the first newspaper in Alberta, the "Edmonton Bulletin," in 1881. The town and district surrounding was surveyed in 1882 and experienced a considerable real estate boom. At this time the prospects for rapid development were very bright, as it was supposed that the Canadian Pacific Railway would

cross the river at Edmonton and build through to the Pacific Coast via the Yellowhead Pass. This, however, was not to come to pass, as the C. P. R. decided to build the first transcontinental across the Kicking Horse.

The Rebellion of 1885 gave a considerable stir to the old Fort and recalled the days of Indian wars between the Crees and the Blackfeet.

The next important event in the development of Edmonton was the coming of the railway to the south bank of the Saskatchewan where Strathcona now stands. The railway reached Strathcona in 1891. This was the signal for the influx of a great many settlers and from that time until the present both the city and the surrounding country have steadily grown.

Edmonton was incorporated as a town in 1892, Matthew McCauley being its first mayor. Edmonton was an outfitting post for the Klondike gold seekers who entered that country by the overland route from the Pacific. The population suddenly increased and from that date both the commercial and industrial life of the town has grown until it is now the eighth city of Canada. Edmonton was incorporated as a city in 1904, William Short being the first mayor. It was selected as the capital of Alberta in 1905; in the same year the Canadian National Railway reached Edmonton from Winnipeg. Four years later the Grand Trunk Pacific was completed into Edmonton. In 1912 the City of Strathcona, which had grown up on the southern bank of the river, amalgamated with Edmonton to form Greater Edmonton. In 1913 the Canadian Pacific completed the High Level Bridge over the Saskatchewan, making the third transcontinental railway to pass through Edmonton.

Edmonton stands at the gateway to the Last Great West, which includes the Athabasca, the Peace River and the MacKenzie Valleys. This is practically one-quarter of the area of Canada. Trade is rapidly growing in these territories and Edmonton is the distributing point, sending goods by rail, river and ocean transportation as far as Coronation Gulf and Herschell Island. Three railways touch the waterways of the North from Edmonton, namely the Edmonton, Dunvegan & British Columbia, to Peace River and Grande Prairie; the Canadian National to Athabasca on the river of the same name; the Alberta & Great Waterways on the Lower Athabasca and Fort McMurray, where the Clearwater joins that river.

Civic Government: The City is governed by a council of ten aldermen and a board of two commissioners, one of which is the mayor. The council is the Legislative Section, the commissioners, the Executive Section of the City Government. (a) Taxes are levied on the actual value of land. (b) Improvements 60% of actual value. (c) Business undertakings, 6 to 25% of the annual rental, according to the class of business carried on. The City owns its own street railway, water, light, power and telephone systems. It has established and controls a great municipal hospital. It has established one of the best Exhibition Grounds in Western Canada and conducts an annual summer

fair and spring show, where live stock from all parts of Canada competes.

The geographical situation of Edmonton is about 75 miles south of the centre of the Province and from that advantageous point affords transportation facilities over three transcontinental lines besides being the terminal of two others and of thirteen radiating systems.

The Edmonton district contains the finest farming lands in the west and is not dependent on irrigation schemes for its fertility. It is ideal for mixed farming and as a dairy country cannot be equalled.

There are four first class hospitals in addition to the Isolation Hospital, two of which (with the Isolation) are under the control of the Hospital Board and the other two are controlled by two of the Catholic Orders and together furnish adequate accommodation of the most up-to-date character to the sick both of the City and of the district. The University of Alberta have near completion a building of the extension of medical teaching, the cost of which is in the neighbourhood of \$700,000.00.

The City donated a very choice site for a Memorial Hall to its soldiers and the funds for its erection were collected by the Great War Veterans Association who are now housed in their own building which furnishes them a commodious club house and convenient quarters for the housing of their regimental records and the carrying on of their many activities.

The Edmonton Public Library is one of the institutions of the City carrying on a large work and affording much appreciated facilities for the study of weighty matters by means of its reference department, or of entertainment by means of its very complete stock of works on lighter subjects.

Of churches there are over one hundred, comprising all the known sects, (and one might almost say, many of the unknown).

The Board of Public Welfare is maintained by the contributions of the benevolent, to which the City adds \$2 for each \$1 collected and takes care of those who are so unfortunate as to require temporary assistance; it also (through its Superintendent) looks after the administration of the Mothers Pension Act to which the City is a contributor.

The City has upwards of 800 acres in parks including the Exhibition Grounds and Municipal Golf Links, and a supervisor of sports is appointed for the direction of the different games, for which ample playgrounds are provided and which include splendidly equipped Athletic Park. Professional Ball and Hockey teams are amongst the foremost in the west.

Established industries comprise saw mills, lumber, brick yards, sash, door and joinery factories, iron works, and for boat-building, clothing factories, cigar factory, biscuit factory, candy factories, brewery and bottling works, box factory, fur manufacturing and raw fur and hides, tanneries, flour mills and elevators, florists and nurseries, saddlery and harness, tents and mattresses,

jam, vinegar, printing, bindery and stationery, dairy and cheese and many other factories, in addition to which Edmonton is in the centre of a vast coal field, some thirty mines operating in the immediate vicinity.

Aerial transportation is not new to the City, demonstrations having been given for several years past; 1919, however, saw the first application of the airplane to commercial purposes when the plane "Edmonton" (owned by the City) commenced to make daily ascents and excursions; a 7-passenger Mono-plane has recently made a successful flight from New York to Edmonton.

Young Edmonton is most amply provided for in the matter of primary and secondary education by means of the following:

No. of Schools	Instructors	Pupils
41 Public Schools (incl. Technical)	375	13,402
7 R. C. Separate	41	1,673
		<hr/>
48	416	15,075

There are, besides the above, a branch of the Normal School, several Commercial Colleges and Academies (including Music), and the undenoted Theological Colleges:

Alberta (Methodist), Robertson (Presbyterian), St. John's and Jesuit (Roman Catholic).

EDMONTON WATERWORKS

The water supply is taken from the North Saskatchewan River through two 36-inch intakes into the pump station on the north bank of the river. At the pump station there are two six-million gallons and one eighteen-million gallons low lift centrifugal steam-driven pumps; one six-million steam-driven centrifugal high lift pump, and two ten-million electric high-lift pumps. The pressure on the higher street level is from 40 to 45 pounds and on the lower river flats from 95 to 100 pounds, while at the pump station from 105 to 110 pounds is maintained. The pressure for fire fighting is raised by the Fire Department's own booster equipment.

The Filter Plant comprises sixteen Roberts Gravity filters of one-half millions gallons each, the sedimentation basin and two clear water basins.

The system stands capitalized at \$2,405,701.00, the annual revenue for 1920 amounting to \$429,141.00.

Today the system is comprised of 167 miles of 4-inch to 30-inch water mains, 11,729 water services, 813 fire hydrants. About 400 new services are being added each year.

The daily consumption of water averages 6,215,000 gallons, or a per capita consumption for all purposes of 95 gallons per 24 hours.

The Department is managed by a superintendent and office staff of 14, with offices on the second floor of the Civic Block, and an outside construction and maintenance gang under a general foreman.

About 80 per cent. of the services are on meter, the following tariff as revised being in effect on April 15th, 1921.

Henderson's Edmonton Street and Avenue Directory for 1923

All Numerical System of Street Naming and House Numbering Plan

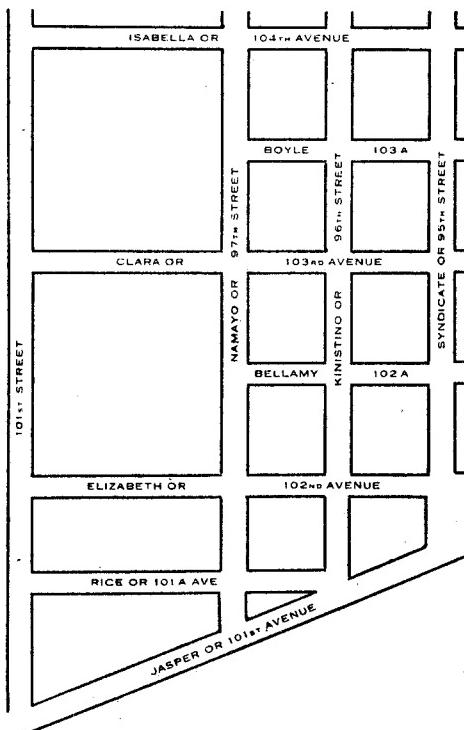

Streets run North and South, odd numbers South side ; Avenues run East and West, odd numbers East side.

Streets are numbered from the East. Avenues are numbered from the South.

Old 1st Street is 101st Street. Jasper Avenue is 101st Avenue.

Short avenues and short streets have an A number.

The East and South have the small numbers. The North and West parts have large numbers.

The original names of the following Avenues and Streets have been retained in this issue of the Directory : Jasper Ave., Main St., Stony Plain Road, St. Albert Road, Fort Road Saskatchewan Drive and a few lesser known streets.

Examples House Numbering

1. 10312 on 96th Street. 12 is the house number as it is the last two figures. 103 is the First Avenue south of that block on 96th Street.

2. 10348 on 95th Street. 48 is the house number, 103 is the Avenue south, 95th Street.

3. 9624 on 102nd Avenue. House No. 24, 96th Street is the first street east of that house. The house is between 96th and 97th Streets.

NOTE—The arrangement of the following Street and Avenue Directory is in numerical order, with avenues preceding streets. Avenues and streets not numerically named appear first in Alphabetical Order. The arrangement by directions is East, West, South and North.

Where the odd and even numbers on an Avenue or Street are separated the South Side (odd numbers) on Avenues appear first, and the East Side (odd numbers) appear first on Streets.
